New York, Oct. 28. A general denial of the charges brought by the National league against Horace Fogel, president of the league's Philiadelphia stable in the state of the league's Philiadelphia

dub, in this city, on October 17, are contained in a letter received from cogel today by President Thomas J.

Mr. Fogel's letter expressed defi-ance of the right of the National league to try his case for alleged statements reflecting upon National league baseball, according to Mr. Lynch, who said the text of Mr. Fo-gel's reply would not be made public until November 26, when the league will meet here to give the Philadelphia officer a hearing.

One charge brought against Fogel is that in article published under his signature he stated that the National league race for 1912 was "crooked," and that President Lynch and certain underse were working in the the inter-

umpires were working in the the inter-est of the New York club, and that further it was "fixed" for the New York club to win the pennant. In his letter of reply today, Mr. Fogel de-nies he ever made such statements. "How does Mr. Fogel explain the fact that such statements appeared under his signature?" Mr. Lynch was

"He doesn't attempt to explain that at all," was the reply. "He merely makes a general denial of that and the other charges and then declares the other charges and then declare the National league has no jurisdic tion in the matter of trying him for his alleged statements."-

so much more attractive than before because the public likes to see touch downs made and injuries reduced to a minimum. There have, of course, been a number of scoreless games, but they were due rather to fumbling and undeveloped team work than inability to make touchdowns under the new rules.

That particular amendment to the football code by which four downs are allowed to make 10 yards has been the salvation of the present game. The extra down gave just that additional factor to the strength of the offensive team which was needed to permit to hold on to the ball a reasonable length of time. It has given quaterbacks more latitude in the selection of plays, and while there has been much line plunging it has not been the sort of mass playing that brought down so much severe criticism upon the game. The mild and healing influence of the assistance of any of his team was the highest for its remarkable received the assistance of any of his team mates has prevented a return to the evil which existed when it was permitted the man carrying the ball to receive the assistance of any of his team mates has prevented a return to the evil which existed when it was permitted to bottle, write to Dr. Kilmer's Co. Winning World's Championship and New York, Oct. 28.—A plan to cut the pixyers' share of the receipts of the world series baseball games will be given serious consideration by the national commission this winter. August Herrmann, chairman of the com-mittee, is one of the advocates of the scheme, which would limit each member of the winning team to \$1,000, while the losers would get \$750 apiece. The money, according to the Herr-mann idea, will be deducted from 60 main idea, will be deducted from 50 per cent. of the first four games, the balance to be distributed equally among the players of the other four-teen major league teams. Under such a plan, the world series would provide a nice bonus for all the major league players, even tall enders, and it is believed would also nut are major.

FINANCIAL AND COMMERCIAL

STOCKS QUIETLY STRONG. Trading Light and Wholly Professional Throughout the Day.

New York, Oct. 28.—Stocks were quietly strong today after an early period of hesitation, due to such restraining influences as last Saturday's bank statement, the foreign situation and fears of some unfavorable decis and fears of some unfavorable decis-ions by the supreme court. In the aft-ernoon, when it became definitely known that the latter tribunal would take no action on the several import-ant cases before it, the market more than made up for its initial heaviness, but trading remained light and pro-fessional to the end.

Reading was again the most active suc, with some inquiry for Hill and Harriman shares, the grangers, and a few less prominent stocks. The To-bacco group was conspicuous for its wide fluctuations, and oil shares also manifested strength. United States Steel and coppers were little more than steady. In fact, the metal stocks were under moderate pressure, being held back by trade advices which suggest-ed price concessions. Earnings of the Steel corporation for the third quarter of the year are to be published after the close of tomorrow's market. Completion of the settlement is expected to show a marked decrease in foreign holdings of our securities. Paris prices reflected heaviness, and Berlin was again depressed by pos-sible complications arising from the war in the Balkans.

Call money rose to 6 per cent. here, an outcome of the depleted bank re-serves, but most loans were made under that rate. The time money stif-fened to 6 per cent, the highest figure of the year for sixty and ninety days, with little inquiry for other periods.

In run getting the New York Glants led their league in 1912 by a wide margin, and the general impression is they did it by stealing bases. That may be true enough, but some account must be taken of another feature of their offensive work. Statistics show the Giants led their league in home runs with 47, and a deeper plunge into the dope indicates they had a habit of making them when they counted double or triple—with men on bases. McGraw certainly has on his team several persons who have made it a habit to insert four baggers just at the psychological moment.

Chief Meyers first assistant in the back stopping department — Arthur Wilson—hit for the grand tour thrice this season and every time his clout meant a New York victory. April 29 Wilson made a four bagger off Nap Rucker in the ninth inning which changed the aspect of the contest, July 18 cmm to the bat against Taylor of 1978.
